

SPACE CITY FC MEMBERSHIP

SCFC is a 501c3 youth soccer organization providing a positive experience for over 2000 players of all ages and abilities. Through positive coaching methods, the club not only strives to help young players reach their maximum potential on the field, but also uses the game of soccer as a vehicle to promote education, health and wellness while teaching valuable life lessons. Providing these opportunities comes at an expense. The majority of the revenues to run the club are raised through registration fees. As we strive to increase the level of our programming and expand our facilities, we remain very conscientious of the burden put on our families to manage our growth.

We are looking for corporate sponsors willing to help financially support our programs, relieve some of this burden and make our programming available to more players. We do offer scholarship opportunities to those families in need. As much as we value giving this assistance, it does increase our fiscal challenges.

We understand there are few companies in a position to donate to a non-profit organization just out of the goodness of their heart or just for the tax deduction. We know for most it will be a simple business decision: "Will using our Marketing/Advertising dollars, to partner with SCFC, provide us a better return on investment compared to other opportunities available?" Our plan is to create win-win situations by encouraging our 2000 families to support those businesses that are supporting us. For money they are spending already, we will be asking our membership to spend those monies with businesses committed to helping us.

Please look at the sponsorship opportunities available. Opportunities start from a \$250 investment, to get your company's message out to all our families, and go up to a \$100,000 investment, to become the club's title sponsor. We expect most companies will see value in something in between. We can also create a custom package to better suit your business. We look forward to working with you!
